tent Mill Wheels..

Timbey's Patent

Vent Cast Iron Water Whee

—for—

SAW MILLS,

ted by T. R. Timbey of Cato N. Y

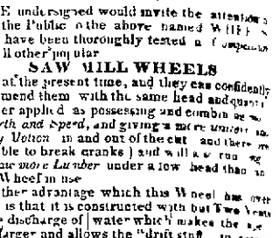
E undersigned would invite the attention the Public to the above named Wheels have been thoroughly tested a Competitor all other popular

SAW MILL WHEELS

at the present time, and they can confidently mend them with the same head and quantity applied as possessing and combining *ith and Speed*, and giving a more uniform ble to break cranks) and will saw and *more Lumber* under a low head than any Wheel in use

ther advantage which this Wheel has over is that it is constructed with but Two Vents discharge of water which makes the water larger and allows the "drift stuff" to escape at filling up the Wheel

ons wishing to adopt the BEST WHEEL well to call and examine before purchasing here



would also call the attention of Mill Owners and Operators to

Valentine's Patent

versing Centrifugal Water Wheel,

—FOR—

UPRIGHT SHAFTS,"

HICH are adapted for driving all kinds Machinery in Manufacturing establishments or Mills and are made of different sizes to suit any amount of power required and from tation these Wheels have acquired by the test ful operation of several hundred of them already and in use we feel confident in recommending n as combining more advantages than *any other* eel, for perpendicular Shafts now *used*

e evidence of the merits of this Wheel would refer to the following extracts from the re of experiments made with the same by THA R, BEARD Esq *Civil Engineer*—Lowell who is well known as one of the most Scientific and experienced practical Engineers in the try.

This wheel is formed with curved floats ber depending upon the size and vel cel, each extending so far around the Wheel when the water arrives at the jet its pressure far expended that it falls very near ver the Wheel The Wheel is inclosed in a ical wooden curb or flume, in which the ar ds at its full head, the column being sus the stationary plate underneath the Wheel, t has no downward pressure upon the Wheel, ch stands perfectly free in the column of wa by this arrangement all the friction on the bearing on the Wheel is avoided, and so much power saved, which in the ordinary mode of ation is wholly lost

This Wheel is adapted to low as well as high ds of water and will run as well in back water out of it, providing the head rises in a freshet as the back water But a Wheel with the jet gauge I form a high head will not answer in low one, and the rice varies far as the head increases, width of the jets should be proportionally ged so that the water may not issue to waste, not give its best effect to the Wheel

In point of power the trials show conclusively this Wheel is superior to the best constructed east Wheels, and it has the advantage of working good effect in situations where the Breast wheel would be worthless is less liable to needs easily accessible when they are needed s much less in the outlay, is much more durable, takes very much less room in a mill or shop— plicity of structure durability of parts, economy in application and excellence of power are grand points of recommendation for this Wheel

HILAMAR A BEARD, *Civil Engineer*

*All sizes of the above Wheels with all the EST and most IMPROVED patterns of

ll Gearing, Machinery, &c.; Shaf gle Clapboard, Sapping, Lath and Box Machines;

Blow's Celebrated

HEAVE CURE!!!

Which has been used with such astonishing effect in Provincial England for the last twenty years is now and has been for the last two years performing the most wonderful cures ever on record in this Country. More than

2000 cases of Heaves

2500 cases of Chronic Coughs and Colds,

2000 cases of Distress and Nasal Gleet,

2500 cases of Affection of Bronchial Tubes and Glands,

1500 cases of Thick and Broken Wind, and

500 cases of Inflammation of the lungs,

Have been cured by this extraordinary remedy, since its introduction in the United States. The following is one of the hundreds of certificates in our possession, proving its Universal efficacy

New Scotland, Albany Co., N Y February 17th 1848

Messrs Ford & Grant, Gentlemen—I herewith transmit to you, my certificate for the benefit of those who may have lungs similarly affected

I, hereby certify, that some of my best horses in the winter of 1846 7 became afflicted with the heaves in the most aggravated form—which I intended to run the whole three and four months without doing anything for him. Having heard of the unparalleled popularity of "Dillow's Heave Cure" I purchased three pages of it, gave it to him, and it entirely cured the disease from that time to the present he has been in perfectly sound condition

JAMES M WILLIAMS

UNIVERSAL CONDITION MEDICINE

Read the testimony of an eminent Boston Farrier

Boston January 5th 1848

Messrs Ford & Grant Gentlemen—At the request of your Agent I send you my opinion of your celebrated Dillow's Heave Cure Antiseptic Condition Medicine, as well as a sure cure for the Heaves and all diseases arising from an affection of the bronchial tubes or mucous membrane, I say that I know the large quantities from large experience in practice I recommend it as the best medicine extant, for cases of Fever, Mortal Colic, Epizootic Dropsy of the Skin and Chest, Fever, Pleurisy, Jaundice, Hide Bound Inflammation of the Kidneys and Mange. I consider it to be a vegetable compound which operates upon the animal system in the same manner that Yellow Dock and Sulphur acts upon plants from the human system. I would call the attention of the horse owning public, to the fact that during the months of March and April, I have extracted twenty-two dead colts from the Boston Stables, of which number, twelve died during the last, which I have attributed to the use of improper food, and the neglect of the proper precautions. I feel in that conclusion I am in some form, correct, as I have not lost a horse that I have given Dillow's Antiseptic Powder and upon the operation upon the price of Ginger Hill Skin and covers the old hide to full effect do not make a new one and impart to it a healthy and glossy appearance

THOMAS JONES Farrier

No 11 Ashburton Place

LAUFION—The astonishing success of Dillow's Heave Cure for the last two years in the United States has induced several scrubs to imitate and counterfeit it and they even go so far as to caution the public against it and deceive them by taking off their nostrums as the only genuine article. We deem it proper that *Dillow's Heave Cure* is the first article of the kind ever introduced in the United States and we hereby offer the sum of *One Thousand Dollars* to any person, or persons who will prove to the contrary. Consequently all others must be imitations.

Kirkbride's Tattersall's

HEAVE POWDERS:

A SAFE SPEEDY AND PERMANENT CURE for *Heaves Broken Wind Chronic Coughs Colds* and all diseases which depend upon inflammation of the mucous membrane in the lungs, throat or head of all kinds affect the

Soundness of the Animal's Wind,

This remedy which has been now in use through all parts of the country for the last two years, the United States as a post respecting those obstinate and distressing complaints. Its virtues consist of powerful vegetable ingredients in its composition and is adapted to compete successfully with disease in the heavy constitution of the old and at the same time is warranted to be perfectly safe and genuine is eaten greedily by Horses and other cattle and does not at all inconvenience the animal, or deprive him of usual labor. The following testimonies are from persons well acquainted with the very Horses and of the best performances in the work and are offered to readers of the medical department of Horses to every enquirer.

New York, Nov 1 1847

Messrs A H Gough & Co—Gentlemen—For a little more than two years I have given your Heave Powders to some time again to demonstrate a very little time to get the horse completely and at least to hold the effect of the wonderful effect of your medicine. Such a hard cough as his was and did not believe there was any medicine better. I came plant than this. I had been in the habit of using during extensive practice with Horses but just were to say and *of valuable remedy*, it gives me to say that it is a *single package cured the animal* of a long standing case of Heaves as I ever saw, and has not been in perfectly good. I believe the cure is permanent.

Respectfully, ED FLOYD, 192 Lewis-st

Messrs A H Gough & Co—Gents I brought about six weeks ago a package of Heave Powders to adopt to a favorite horse, which had been troubled with the very for more than two years. His cough was worse than one, and so severe as to incapacitate him from half his usual labor, and had resisted all the remedies ordinarily used for this disorder. These had no effect but to slightly diminish the violence of the heaving while taking the medicine, but that package of your remedy has completely eradicated the disease, and now his wind is as good as ever it was. It is a month since he has taken the Powders, and I can warrant him sound

Respectfully GEO W DAVIS,

Monroe, Middlesex Co N J.

GREAT CONDITION MEDICINE

Besides their specific action upon diseases of the lungs and windpipe, the Universal Condition Powders are the great cathartic and restorative properties are as effectual in horses as sarsaparilla proves to be in the human race for the removal of impurities of the blood and predispositions to disease. Many cases of Founder has been prevented and cured by a few doses of the Heave Powders when the animal is so lame that it can hardly walk. Two doses are sufficient to cure the worst cough in a few days, and will wholly or lessen a second coil be the one. For Milch Cows in condition needs only one dose, and will cause a very light and easy calving and prevent Fever. In cases of dangerous sickness of digestive functions, the presence of worms in the phlegm, by causing an inflammation as described in the following certificate.

Messrs A H Gough & Co The package of your Heave Powders I had bought of you for my horse a cough has entirely cured him but in a different way than I expected. The first dose of Powders I gave him caused him to cough and spit up a great deal of phlegm and a number of worms from him and I believe they were all the cause of the cough ever since which has left him. I for that package has entirely cured the horse in good condition and is now as free as a colt. I cheerfully recommend your Heave and do for worm as well as heaves

Yours, SAMUEL FOBERTS

East Haddam, Ct, Oct 26, 1847

☞CAUTION As several imitations of the valuable and popular remedy are a-putting out under the name of Heave Cure! I warn all and persons are cautioned to be wary of them, and not to remedy but *Kirkbride's Tattersall's Heave Powders*

No Stable should be without this powder preventative. Price $1 per package of sufficient to run a ordinary case, 5 for a dollar

Sold by A H Gough & Co, 149 Fulton st New York S W Fowl Boston and by D Ingraham general agent throughout the United States

County Convention.

The *Democratic Whigs* of the County of Penobscot, are notified to meet in Convention, by delegates at EAST CORINTH, on *Thursday*, the 17th day of August next, at ten o'clock, A. M. for the purpose of nominating three Senatorial candidates for the State Senate, one candidate for County Treasurer, one for County Commissioner, and one for County Attorney. Also to transact such other business as may properly come before the Convention.

The basis of representation will be the same as that fixed for the District Convention.

Per order of Committee.

Bangor, July 17, 1848.

☞ It must be apparent to every one in any way connected with business that the times are very close, that money is hard to be obtained and that prices of disposable property have generally decreased and business brought to quite a low ebb.

It becomes prudent men to examine into the causes which have produced this result, and if possible apply a remedy.

The business of 1847 was greatly stimulated by a foreign and very sudden demand for breadstuffs on account of the unprecented short crops in Europe. This led to no little excess in prices of grain and flour, and of freights, and of vessels &c. Every department of business was greatly excited and of course became greatly extended.

There were too many who believed that this excitement was the natural action of the free trade tariff. There were presented which represented affairs and highly lauded the tariff for producing these results. The unnatural demand has been removed—the unnatural condition of business has passed away; and now we have arrived at a point when we can see and feel the legitimate action of the tariff and see why it so works.

The injudicious reduction of the Tariff, says the N. Y. Express, has produced an increase of revenue to the government, but at the sacrifice of the profits of the home labor. The imports to raise this revenue we now find are greater than we can pay for in exports, and coin must be sent to settle the balances. The loss of this coin, and the loss of confidence it creates, acting upon our banks, reduces our currency and makes money scarce and more valuable. The enormous freights paid upon breadstuffs to Europe, had the effect of increasing our commercial marine beyond the wants of an average trade, and we are now left with an amount of tonnage in excess of the profitable and paying wants of commerce. A good proportion of this tonnage, is paid for only in paper credits—and the owners of ships daily suffer losses from the depreciation of their property, while the representative of its cost to them (their notes) remains the same. With agricultural produce, grain as well as cotton, things are no better. The prevalence of an extended credit system places them in the same position with the ship owner. Paper given for plantations and farms, at high rates, remains to be met at a time when the means of payment are daily diminishing in value. The planter and farmer have enough produce to meet their liabilities, if it could be sold at prices calculated upon, when the liabilities becoming due were incurred. But the maturity of the liabilities finds their assets reduced 50 per cent in value, which is so much loss of capital to the debtor. Another circumstance that must be allowed to have great weight in explaining the want of money, is in the fact that many articles of import have been steadily declining in price, and cannot be sold now for money enough to meet the notes given for them to the importer.

Our imports have immensely increased, bringing us in debt to foreign nations, and at the same time rendering home labor less profitable and our people poorer. We are deb ors now where we were creditors a few months since, nor can we expect relief, until private as well as public measures are taken to equalize our means of payment with our liabilities.

☞ We continue to see in the various newspapers repeated references to the manner with the Massachusetts Volunteers abused General Cushing at the dinner, given them at Faneuil Hall by the city of Boston. Since that regiment has been discharged, individual members of it, scattering through the country, have given what they allege are the reasons why the General was hissed down on that occasion.—They say, that in addition to numerous acts of tyranny toward them which he committed, that there was one order of a personal nature that he caused to be executed—which was so grossly outrageous and revolting, they could never look upon him afterwards but with feelings of the most utter loathing and disgust. It is no hearsay story, these men affirm, but a matter of which they were, themselves, eye witnesses. We would condemn no man unheard—but the reports come so direct—are so circumstantial in detail—and are so grave in character—that we are compelled to believe they are not the off-spring of mere personal pique, or fabrications invented to gratify private animosities. Still, they may be misrepresentations. At all events, we hope and believe that General Cushing will enquire into their character and if they are false, which we trust is the case—that he will take measures to relieve his name from the opprobrium which has been cast upon it by their circulation.

Wooden Buildings.

Last year the City Council repealed all the ordinances before existing, prohibiting or regulating the erection of wooden buildings within certain limits. An ordinance is now before the City Council, reviving and restoring the old laws existing on this subject. The subject will be considered at the next meeting of the City Council on the last Monday of August. The subject is an important and interesting one.

☞ We have received from our enterprising neighbor, Col. Bugbee a ream of superior letter paper, manufactured expressly for him. It is a fine article and will be sold cheap.

☞ Amount of lumber surveyed from the 1st to the 31st of July inclusive 30,587,489 ft., giving an excess over the corresponding month last season of 4,075,788 ft.

The aggregate for the season thus far (July 31st,) 88,363,135

do do do July 31st, 1847, 78,086,603

Office of the Surveyor General, Bangor Aug 1 1848.

Lost Boy.

Left home the night of the 26th inst supposed in a fit of insanity, Benjamin Son of Hon James H. Haines of Burnham, aged 16 years, light complex on, blue eyes, rather large, very prominent forehead—about five feet eight inches high—Had on striped pants, thick boots, white shirts, one red woolen and the other cotton—It was generally supposed he went in the woods near his fathers' residence. The citizens of Burnham and neighboring towns to the number of some 3 or 400 have spent three entire days exploring the forest in every direction without success. It is possible he may have strayed some distance from home any information in regard to him will be gratefully received and suitably rewarded by his afflicted parents and friends.

Burnham, July 31.

Great Fire at Constantinople.

One of the most dreadful accidents which have so often scattered desolation broadcast in the Turkish capital, occurred on the 17th of June. A fire broke out in Pera, which raged with great violence till the next morning consuming some 1500 houses and destroying property valued at more than [illegible] dollars. Three of the Missionaries of the American board, (Messrs. Dwight, Schauffler and Homes) were burnt out with considerable loss of furniture &c. The chapel of the mission was in very great peril but it was providentially saved.

[Boston Traveller.

From Yucatan.

The schooner John Bell, Capt. McLaughlin, arrived yesterday from Campeachy having sailed hence on the 14th inst. We are indebted to the courtesy of a gentleman at house for the use of a file of papers to the 8th inst.

The U. S. steamer Iris sailed from Campeachy on the 14th inst. for Sisal. The U. S. steamer Water Witch was in port in sail in a few days to New York via Havana.

The cause of the Yucatecos has been in many months looked so bright. They have had several actions with the Indians, and of late been uniformly successful. In one was the second in the last battle, and there Cap. Pas was killed and to have defeated eight hundred Indians, killing 250 of them.

Commander Bigelow of U. S. navy, has furnished the commandant of Campeachy with a quantity of arms and ammunition.

[N. O. Pic.

A Tale of Crime and Murder.

A correspondent of the Milford (N. H.) Mirror relates the following particulars of a sad case of seduction and suicide.

About two years ago, a wealthy and influential widow of forty five named Dr. McI——, of Chelsea, hired an amiable and beautiful girl of eighteen, named Mary T——, to assist in the care of his children and household. After a time all of they were seen to ride away together and the next Woodstock paper announced a marriage that they had been married in that place by an Episcopal Clergyman. They returned as man and wife and have so lived till a short time since when Dr McC—— dismissed the unfortunate woman from his house, alleging that she had never been married!! Whether she had utterly been deceived by a sham marriage, or had consented to the deceit in order to save her from inevitable shame, cannot be ascertained.

A poor outcast, driven in disgrace from the house in which she had been so long regarded a virtuous wife and thus rendered an outcast from Society, she dared not return to her relatives the finger of scorn was pointed at her and in whatever company she found herself she was loathed and shunned.—She could not endure this and returned at night to the house of her destroyer and begged piteously for shelter and protection declaring that she had wandered long without food and was starving. At length the door was opened to her from the dread of attracting the attention of the neighborhood.—She was fed and turned away, with strict orders never to show herself there again.

She left, but where could she go? All day she wandered in the woods, and at night she crept back to the only place where she could claim protection and cried for a home. She was repelled but the house aroused the neighbors, who insisted that she should be allowed a shelter. It was agreed that she might, but should leave in the morning a neighbor promising to take her to her nearest relatives. She went to her room, and in the morning was found a corpse *dead*. Deserted, loathed, despairing, without a friend or a hope in the world, the wretched victim had committed suicide!

CONGRESS

Washington July 29.

In the Senate, Mr Breese, from the Committee on Public Lands reported back without amendment, the bill to grant the State of Alabama the right of way, and a donation of public lands, to assist in the construction of a railroad from Mobile to the mouth of the Ohio river.

Mr Niles moved that the Senate proceed to the consideration of the bill to carry out Mr Whitney's plan for the construction of a railroad to Oregon.

After debate by Messrs Hale, Benton and Bell the question was taken upon a motion by Mr Benton to lay the motion to take upon the table and decided in the affirmative—by yeas 28, nays 21.

Mr Breese gave notice of a bill to cede to the State of Illinois certain lands to aid in the improvement of the Illinois river.

In the House the Senate bill to refund the payment of the three months extra pay awarded by law to the officers and soldiers served in the Mexican war, was reported and passed without amendment.

The remainder of the day was occupied with discussion arising upon the consideration of the President's messages.

Mr Duer contemplated the question of the right of Congress to legislate by way of restraining slavery as a matter so self-evident that it ought to be regarded as a mere political opinion only. He then branched off into some extended notice of Gen Cass's position upon this question. He next adverted to the resolution which introduced Whig opposition to the late Senate compromise and proposed another compromise which his party were prepared to support to wit a compromise upon the rejection of all territorial acquisitions from Mexico. He closed his speech by stating the causes and justifying the instrumentality of the Van Buren defection.

Whole time including the debate, the House adjourned to Monday.

☞ We understand that Doct Gregory proposes to give a course of lectures on female and infancy at the Market Hall. Dent G comes well recommended, and his subject is interesting and important, and no doubt will draw a large audience.

Wisconsin makes the thirteenth State of the Confederacy. It contains some 190,000 square miles of territory—two thirds larger than all New England, and full as large as New York, New Jersey and Pennsylvania combined.

☞ The great Fakir of Ava, Signor Francisco, gave his first Magical Entertainment at the City Hall last evening to a full and fashionable audience. He is to perform again this evening, and we believe for the last time.

☞ The Portland Advertiser states that the Thorston Academy, at Saco, with all its contents was burnt on Saturday night. Supposed to have been set on fire.

☞ Thanks to Hodgdon & Co's Express for papers received on yesterday, in advance of the mail.

SPEECH.

OF JOHN M. CLAYTON of Delaware,

IN DEFENCE OF ZACHARY TAYLOR.

Delivered in the Senate of the United States, July 5 1848.

Continued.

GEN CASS ON THE VETO POWER.

Let us inquire, in connection with this, what are some of the other doctrines of the party to which Gen Cass has been compelled to subscribe. Among other things there stands prominently the assertion of the great right and duty of the President of the United states to exercise the veto power, without reference to the limitations prescribed by the fathers of the Constitution. Every man who has perused the Federalist knows that Mr Madison, and his associates uniformly maintained, that the great object of the veto was to enable the Executive of the United States to defend the Constitution and the Executive power within its limits. No man of their day pretended it was designed that the veto power should be extended as it has been, to every act of ordinary legislation and every instance in which a party might by the aid of it elevate or sustain itself against the interests of the whole country. It never was imagined by any member of the Convention which framed the Constitution that the veto clause to that instrument could be so construed by the most latitudinarian expositor as that the President of the United States should be enabled by the force of that clause, to become a part of the legislative power of the country. Now, part of the legislative power of the land, however you find the doctrine laid down, by this party boldly in the public prints, that the President constitutes a part of the legislative power of the country and that the veto power is unlimited and was so intended to be by those who made the Constitution. Let me call the attention of the Senate to a consideration of the primary legislation which the veto power was inserted in the American Constitution. The first sentence of the Constitution declares that all the legislative powers herein granted shall be vested in the Senate and House of Representatives. Next to that, the legislative power is given to the President of the United States. In the judgment of the fathers of the Republic the Executive was not constituted as essential component part of the legislative power. A qualified power of negation was given to him but it was never intended that in the old exercise of any legislative power. In order that we may see the state of the subject which gave rise to the great question which was brought before the Senate, I ask attention to a portion of the debate on the adoption of the Constitution. I am particularly desirous of the attention of the Senate to this point because I wish it to be by what these veto arguments were originally advanced.

SUPPOSED OPINIONS OF THE VETO POWER.

During the session of Congress we have heard and the Hunkers of the party (Mr Atchison) have very strongly denounced as a traitor to the Hamilton as the most dangerous enemy of kingly and monarchical doctrines and a traitor to the cause of liberty. I do not stand here for the purpose of brandishing one of the greatest men the country ever possessed with ignominious charges but I desire to show that the great leader of the Federal party when this subject was first presented to the consideration of the old Continental Congress was the very man to press this veto power upon the Convention and to insist upon its being made absolute and unqualified.

Mr Gerry's proposition being now before the committee, Mr Wilson (the called a Constitutional Federalist) and Mr Hamilton moved that the last part of it be stricken out so as to grant the Executive an absolute negative. There was no danger they thought such power being too much exercised. It was mentioned by Col Hamilton that the King of Great Britain had not exerted his negative since the Revolution (i. e. 1688.)

That is the argument in favor of the absolute veto made by one who has been represented in this chamber as the great aristocrat and monarchist of the day—Mr Gerry, a Democrat of that day—

Mr Maugum (in his seat) Republican.

Mr Clayton—thank my friend for the word—Republican is a much better name.

Mr Gerry said he saw no necessity for no great a control over the legislature as the best men in the country would be dismissed in the two branches of it.

Dr Franklin said, he was sorry to differ from his colleague for whom he had very great respect on any occasion but he could not help it on this. He had had some experience of this check in the executive on the legislature under the proprietary government of Pennsylvania. The negative of the Governor was constantly made use of to extort money. No good law whatever could be passed without a private bargain from him. "It the executive was to have a council such a power would be less objectionable. It was true the King of Great Britain had not, as was said exerted his negative since the revolution but that matter was easily explained. The bribes and emoluments now given to members of parliament rendered it unnecessary everything being done according to the will of the ministers. He was afraid if a negative should be given as proposed the more power and money would be demanded till at last enough would be got to influence and bribe the legislature into a complete surrender to the will of the executive.

Then comes the Republican shoemaker, Roger Sherman. What did he say?

Mr Sherman was against enabling any one man to stop the will of the whole. No one man could be found so far above all the rest in wisdom. He thought we ought to avail ourselves of his wisdom in revising the laws but not permit him to overrule the decided and cool opinions of the legislature.

Mr Wilson said in his speech for the veto, there might be temperatious moments in which ammunities may run high between the executive and legislative branches, and in which the former ought to be able to defend itself.

"Mr Butler had been in favor of a single executive magistrate but could he have entertained an idea that a complete negative on the laws was to be given him, he certainly should have acted very differently. It had been observed, that in all countries the executive power is a constant course of increase. This was certainly the case in Great Britain. Gentlemen seemed to think that we had nothing to apprehend from an abuse of the executive power. But why might not a Catiline or a Cromwell arise in this country as well as in others?

Mr Bredford, of Delaware, was opposed to every check on the legislature, even the council of revision first proposed. He thought it would be sufficient to mark out in the Constitution the boundaries to the legislative authority which would give all the requisite security to the rights of the other departments. The representatives of the people were the best judges of what was for their interest and ought to be under no external control whatever. The two branches would produce a sufficient control in than the legislature itself.

Col Mason observed that a vote had already passed he should—he was out at the time—investing the executive powers in a single person. Among these powers was that of appointing to offices in certain cases. The probable abuses of a negative had been well explained by Dr Franklin as proved by experience the best of all tests. Will not the same door be opened here? The executive may refuse its assent to necessary measures, till new appointments shall be made to his mind, and, having by degrees engrossed all these into his own hands the American executive, like the British, will by bribery, and influence, save himself the trouble and odium of exerting his negative afterwards. We are, Mr Chairman, going very far in this business. We are now about establishing a British governor, but a more dangerous monarchy—an elective one—We are introducing a new principle into our system and not necessary, as in the British Government, where the executive has greater rights to defend. Do gentlemen mean to pave the way to hereditary monarchy? Do they flatter themselves that the people will ever consent to such an innovation? If they do, I venture to tell them they are mistaken. The people never will consent. And do gentlemen consider the dangers of delay, and the still greater danger of rejection, not for a moment, but forever, of the plan, which shall be proposed to them? Notwithstanding the oppression and injustice experienced among us from democracy, the genius of the people is in favor of it and the genius of the people must be consulted. He could not consider the federal system as in effect dissolved by the appointment of the Convention to devise a better one. And do gentlemen look forward to the dangerous interval between the dissolution of an old, and the establishment of a new government, and to the scenes of confusion which may ensue? He hoped that nothing like monarchy would ever be attempted in this country. A history of oppressions had carried the people through the late revolution. Will it not be enough to enable the executive to suspend offensive laws, till they shall be coolly reviewed and the objections to them overruled by a greater majority than was required in the first instance? He never could agree to give up all the rights of the people in a single magistrate. If more than one had been fixed on, greater powers might have been intrusted to the executive. He hoped the attempt to give such powers would be as the weight deserves, as an argument for increasing the number of the Executive.

After this, Dr Franklin again spoke against the veto power, treating this question as it involved that of monarchy or republicanism and one passage of his speech contains a prophecy so remarkable that I must read it to the Senate.—

"The first men put at the helm (of state) will be a good one. Nobody knows what succeeds afterwards. The executive will be always increasing here as elsewhere till it ends in a monarchy.

Thus, then, it appears that the opinion of a man not in the slightest degree implicated in the debate was that an absolute or a qualified veto would introduce a great monarchical feature into our system, in other words that the Federal government would be converted into a monarchy by this provision. That was the opinion of Franklin, of Mason, of Sherman of Bedford, of all except the three Federalists of the day.

[illegible] ON THE VETO PERPETUAL WITHOUT THE FEDERAL [illegible]

Now where are we? What is the party which now claims a monopoly of the name of Democrats? [illegible] the party which [illegible] political power [illegible] [illegible] [illegible]

ONE THOUSAND COSTLY PAINTINGS,
and rare and valuable ENGRAVINGS, among which are Sully's great Picture of
Washington Crossing the Delaware,
Portraits of the Governors of Massachusetts and all the Presidents, &c. painted by the best artists, lining the walls in every part, and with the unique Statuary, Egyptian, Indian, and Polynesian Relics, &c. swelling to the number of nearly
Five Hundred Thousand Articles,
comprising every conceivable
Rare and Curious Thing,
that can interest or amuse, and among which visitors will always find something that is
New, Strange & Instructive.
The most liberal arrangements having been made both in the old Country and this for procuring living curiosities, such as
Giants, Dwarfs, Orang Outangs, &c.
The entire of this gigantic collection is on exhibition, every day, and through the evening.
Splendidly Illuminated with Gas!
in addition to which every evening, and on Wednesday and Saturday afternoons, for the accommodation of strangers, a series of
THEATRICAL AND MUSICAL PERFORMANCES,
consisting either of
Sterling and witty Comedies,
Thrilling and Righteous Dramas,
Soul Inspiring Operas,
Mirth inspiring Farces,
or Gorgeous Spectacles,
are enacted in the
Magnificent Exhibition Hall
by performers of acknowledged talent, aided by an Orchestra unequalled in the Union, and with
Scenic and Stage Arrangements
that cannot be surpassed! Every department being under the immediate direction of the most Talented Artists of the Profession, the proprietor is enabled to defy
COMPETITION IN THEATRICALS!
whether it be in regard to Quantity, Quality, or Price.
The most perfect cleanliness, order and decorum is maintained throughout the establishment, which has secured it the reputation of being the
CHEAPEST PLACE OF AMUSEMENT IN THE WORLD!
and to enable all visiting the city to examine not only the
Vast Collection of Curiosities,
but also to witness the splendid, chaste and amusing entertainments. The price of
Admission to the Whole
is only 25 cents. Children half price.
On all Holidays and particularly
On the Fourth of July,
Extraordinary Attractions are presented, and performances given at intervals throughout the entire day and evening.

DR. S. KIDDER'S
DYSENTERY CORDIAL,
—AN—
Immediate & Perfect Cure
—FOR—
CHOLERA MORBUS, DYSENTERY, DIARRHŒA, SUMMER COMPLAINTS OF CHILDREN, SEA SICKNESS, GENERAL DEBILITY etc., etc.
WHERE this all powerful antidote is at hand, Cholera, Dysentery and Chronic Diarrhœa are no longer to be seriously feared, or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a few hours, if taken at the commencement.
It has been tried by the public for more than sixteen years, and was the first article made known to the public as an immediate and perfect remedy for the complaints. It has been thoroughly tested in every country and every climate, and its effect has every where proved the same—SURE TO CURE, even when the disease has advanced to the last stage. The public may rest assured that it contains neither opium or mineral substances, or any thing that is in the least injurious to the constitution.
Cholera and Common Cholera Morbus.
This Cordial immediately checks the vomiting, relieves the pain, stops the Diarrhœa and restores the bowels to a healthy regular and healthy state, however severe the attack may be or however long the patient may have become diseased, it invariably restores.
Severest cases of Dysentery,
are immediately counteracted, the gripes are allayed, the bowels eased and not unfrequently the bowels become perfectly regulated and restored in the short space of from twelve hours.
Chronic Diarrhœa,
either in children or adults of months or years continuance, are most readily cured with this Cordial, notwithstanding they may be reduced to a mere skeleton, it immediately strengthens and shortly restores them to perfect health.
Cholera Infantum.
It has saved the lives of many thousand children when reduced to death's door by this complaint, it gives them immediate relief, and they very soon recover.
Sea Sickness.
It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and readily restores the patient. It invariably checks vomiting produced from any cause whatever.
Children that are Teething,
should always be provided with this medicine, as it will keep the bowels regulated, and keep off the Cholera. It is wholesome, safe and pleasant to the taste, and children are fond of it, and will take it when no other medicine will be taken.
For General Debility and Dyspepsia.
It is a most excellent restorative giving a healthy tone to both the stomach and bowels, and prevents food from pressing or disturbing the stomach.
CAUTION.
Beware of those impositions which are daily palmed off upon the public, bearing the name of my article which is CHOLERA MORBUS, DYSENTERY AND DIARRHŒA CORDIAL, which name imposters have surrounded. Also, they have expensive advertisements and flattery addressed to publishers they have done this for the purpose of palming off their worthless articles at the expense and reputation of this original and most popular medicine that ever came before the public.
Be sure that you obtain MRS. S. KIDDER'S Cholera Morbus, Dysentery and Diarrhœa Cordial, and you will get the only true and original article, which has ever been held in the highest estimation by the public throughout the whole country.
It is put up in bottles holding nearly a quart, intended for family use and sold at One Dollar a bottle.
Sole by MRS. S. KIDDER,
No. 100 COURT STREET, BOSTON,
who is the inventor and sole proprietor. Druggists and Apothecaries supplied as formerly, in large or small quantities.
AGENTS.
A. P. GUILD, G. F. SARGENT, GEO W. LADD, and J. S. INGRAHAM, Bangor, and for sale by dealers in Medicine generally.

DISEASES OF THE Throat and Lungs.

COUGHS and Colds, the fruitful parents of Consumption, Bronchitis, Asthma, Pleurisy, and many other dangerous diseases, are too often neglected until the foundation of the Specific Complaint is laid deep in the System. A Physician is then called in, who administers a few Palliatives, and depart, leaving the disease incurable, and the Patient in confirmation of his opinion, dies. But why does he die? Simply because he does not resort to the proper remedy, but trusts the merits of disease's Preservations rather than the indisputable evidence of experience and the most authentic testimony. Of this class is the only true one, the efficacy of

DR VONDERSMITH'S INDIAN COUGH BALM *and Lung Balsam,*

have been thoroughly established. Let those who doubt, read the following testimonials which are merely samples of hundreds of the same nature.

Of Twenty Year's Standing!

City of New York, July 21st, 1847.

This is to Certify that I, Nelson Larrabee, of Jersey City, have been subject to a very hacking cough and a pain in the side and chest, attended with night sweats and general weakness of the system for a period of twenty years, and pronounced INCURABLE CONSUMPTIVE, neither the advice of regular physicians nor the many advertised remedies I have taken have been of any permanent benefit, and I was gradually sinking into the progress of my disease, when I was persuaded to try Dr. E. W. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by the aid of which, all my symptoms have been removed and I have been wonderfully restored to the blessings of health, and the prospect of a prolonged existence.

In gratitude for which, and in the hope of benefiting others, I solemnly testify to the facts in this certificate.

NELSON LARRABEE.

Jersey City.

Sworn to before me, this 21st day of July, 1847.

WM. V. BRADY, Mayor

of the city of New York.

INFLAMMATION OF THE LUNGS.

New York, June 12, 1847

Dr. Vondersmith—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold which settled in my lungs. I was unable to attend to my business during the day. I had to sit upright in my bed at night, and I could not possibly survive one week longer. The expectoration, night sweats and emaciation of my whole body, in fact, should I give the particulars of my case, it would be almost incredible. I was fortunate enough to try Dr. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I commenced, when I had used it about one week, my cough decreased considerably, which gave me great hopes. I continued with the medicine, coughing up considerable of the night sweats has been that I enjoyed perfect health, a blessing that I have not enjoyed for years, until the present time. Inasmuch as I attribute my recovery to the use of Dr. Vondersmith's Medicine, that I would be neglecting in the highest degree, if I neglected to make the above facts, so that you may shew it to all the afflicted, who may call upon you to address me to them. I shall be happy at any time to converse with the afflicted, who may call upon me.

Your obedient and grateful friend.

JAMES HENDERSON, No. 703 Washington St.

Sworn to before me this 19th day of June, 1847

WM. V. BRADY,

Mayor of the city of New York

CONSUMPTION.

STATEN ISLAND, June 10th, 1847

DEAR SIR—I take great pleasure in giving you my certificate, that December I was attacked with a severe cough, pain in my left side, loss of appetite, and constant raising of white and yellow mucous. Some days I raised the form of mucous, streaked with blood. I have been under the treatment of one of our physicians, who prescribed for me, but I purchased one, I only made use of it for one week, it was the cause of bringing on hemorrhage of the lungs, which reduced me so much that I was unable to set up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vondersmith's Medicine recommended very strongly by a person whom he had cured, I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions, and it cured me in a fortnight sound.

Sworn before me, this 10th day of June, 1847.

WM. V BRADY, Mayor of the city of N. Y.

Principle Office, 36, Bleecker St., N. Y.

CONSUMPTION CURED!

Buchan's Hungarian Balsam of Life.

THE GREAT ENGLISH REMEDY FOR *COLDS, COUGHS, ASTHMA and CONSUMPTION!*

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pastoral and Pulmonary diseases, still stands unrivalled and unsurpassed by the most elegant, agreeable, and effectual curative of these formidable complaints, now known to the civilized world.

Three years trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre-eminent merit in all parts of the country, as the great and only RELIABLE REMEDY to the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, cough and inflammations that can possibly be used.

INCONTESTIBLE PROOFS

Of the efficacy of this Balsam in the worst forms of Consumption.

IMPORTANT MEDICAL TESTIMONY.

DR. BUCHAN—Dear sir: The Hungarian Balsam is, beyond all question, a most perfect and admirable preparation for diseases of the lungs. I have used it in my family, and in my professional practice for more than two years with the most uniform and entire success, in cases of severe *Pulmonary disease*, and I can conscientiously recommend it to all who are afflicted as the most certain remedy for such diseases with which I am acquainted. Yours respectfully,

FREDERIC T. STORER, M. D.

Saco, Me., May 29, 1847.

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM.

[From the Christian Freeman.]

While we repudiate quackery, we are always pleased to give credit to that which is truly meritorious, and to give information which may benefit others. A few days ago a brother of ours, from Norway, Me., called into our office in comfortable health, whom we did not expect to see again on earth. We received a letter a few weeks since, from another brother, resident in the home with him, saying that he was confined to his bed, and could not probably continue but a short time. Judge then of our surprise when we saw him enter our office. He has a slight cough remaining, as it would be natural that he should have, until he has had further time for acquiring strength of lungs. He is in comfortable health. The following letter which he addresses to the general Boston Agent for the medicine which has restored him so wonderfully will show what medicine has been the instrument of the good work.

Boston, Feb. 16, 1847.

Dr. D. F. Bradlee—Sir—I cannot refrain from saying a word in commendation of "Buchan's Hungarian Balsam of Life." Here is a plain statement of facts in relation to my case, and if they are of any service in inducing the sick to seek relief at the source from whence I obtained it, I shall be thankful.

My residence is Norway, Me. Three years ago last fall I took a violent cold, which left a cough of the most aggravated kind, accompanied by a severe pain in the left side. Last June I had become so feeble that I was obliged to cease all work, and was confined to the house until about four weeks since. During that time I received the best medical attendance, and tried nearly all the medicines which are recommended in such cases, but could find no relief, but grew worse, and for the last three weeks was confined to my bed. Two of my physicians gave me up as past recovery. But as fortune would have it, I heard of the Hungarian Balsam, and immediately procured a bottle. This gave me instant relief, and six bottles have broken up my cough, and placed me in a situation to assume, with advancing health, my usual occupation.

BE WISE TO-DAY!

Delay in any case of Consumption is dangerous, and nine-tenths of all cases are hopeless. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described, be advised in time.

Sold in large bottles, at only one dollar per bottle.

NEW ARRIVAL AND SALE.

RICE'S NOVA

HIGHLY CONCENTRATED

SARSAPARILLA

Cures the Worst Diseases that ever [illegible] gives [illegible] of Lives [illegible] Annually!!

10,000 CASES

Of SCROFULA cured by a single year, and 5,000 of DYSPEPSIA and HUMORS, of which proof can be furnished. This is the only medicine known to cure these cases.

THIS Sarsaparilla will beat TWO QUARTS OF WATER SARSAPARILLA and then be far superior to any made. It is not sold by the Bottle but FULL STRENGTH and power, without reserve, and this is offered to the special benefit of those who have tried and failed to get other Sarsaparillas that they are WELL. Chronic Afflictions, Sickness, and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to do

Six Times Strong

than any other, and [illegible] Sarsaparilla and Cheaper than Others. THIS Sarsaparilla has been used in some of the best MEDICAL Tents and Shops in the world, and CURES all the sickness, KILLS all Old Pain and REMOVES the suffering that it is the power of Human means to do.

It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Cancer, Consumption, Rheumatism, Salt Rheum, Affections of the System, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH KELLEY & CO'S SARSAPARILLA

A PHYSICIAN, who is truly the most distinguished of any in a large city for professional skill and virtues, astonishing as it may seem, that he actually CURED a case of Consumption with Kelley & Co's Sarsaparilla and says that there is no medicine in which he has so much confidence or Diseases of the Lungs." Some will marvel at this REMARKABLE Cure, but he accredits it knowing to the fact. This INESTIMABLE Sarsaparilla is also doing wonders in large cities and says

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England "that there is no other medicine which is CALCULATED to do MUCH GOOD, and yet is INCAPABLE of doing injury." With distinguished compliments are these: "Novelty and Ostentatious Pretensions with SYNONYMOUS RECOMMENDATIONS. It SERIES was everything else fails, the

Severest Scrofula and Humors,

where the fresh tails pill the bones—the sores are hoarse and the DARK OF DEATH seems ready to strike the sufferer. And the reason for this is that, unless the BLOOD be perfectly Pure Rich Healthy, Good Fire Nutritious, FIGURES are those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Sluggish and Pain in Stomach washing, Appetite gone, Pain weak or Feverish Skin yellow, Nervous deranged, Hot stones Health, Sunken gill, and Vigor, to every disordered function of the System—causing death to more than as Nature requires. And for WONDER CURE Powers over Disease in every form and part which no other Medicine possesses, the public justly state that

Haste Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas, is, that it does not tamper with the patient, or prolong his sufferings. But it first attacks the disease and strength, then removes it, then brings up the flesh and strength on a perfectly pure Blood, so the cure is always thorough and permanent. Others only shatter or back on the disease, but this EXTIRPATES it wholly from the system—thus saves the patient. He while others end in ruin. The whole Body is made so healthy, by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that Medical Colleges, Professors, and Physicians always prefer it for the sake of its Superior Virtues, all who are seeking the PRICELESS BLESSINGS OF HEALTH.

Ladies, Married and Unmarried!

It is for you, especially, that this Sarsaparilla is made, as the HEALING ART has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured far as they ought, hence it is that all the medicines which are used with the hope of Cure, so invariably and entirely fail. But this Sarsaparilla has SPECIAL ability, to cure over Disease, Affection of Pain, which unmanes under the sex. It regulates the menstruation—corrects the irregularities, cures the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles.

Manufactured by

The Great Remedy for Gonorrhœa

GLEET, Stricture, and all analogous complaints, is DR DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practiced in the principal cities in the Union, during the last 40 years. His only reason for introducing the Paste in this public manner is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr. D. most solemnly affirms that during his practice of forty years this Paste has never, in one single instance, failed of effecting a cure in a few days, without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years, but after taking the Paste for a few days, the angry symptoms disappeared, and the patients were discharged, entirely cured.

If the unfortunate, instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste, we should not see so many emaciated bodies and sallow countenances as we do at the present time.

☞ In case this Paste should not afford a cure in the shortest possible time, the price paid for it will be given the patient on his returning the empty boxes.

For sale only by the original inventor and sole proprietor, Dr. PETER G. DOUGLASS, at his Office, No. 55 Chatham-street, Boston, at 4 per box, where he can be constantly consulted on every disease incident to the human frame, and the patient refunded the whole amount of the money, if not cured, or benefited by the treatment. Advice gratuitously to all who purchase the Paste.

WARRANTED

GIVEN A TREASURY OF

A THOUSAND DOLLARS,

FREE FROM MERCURY AND [illegible]

THE ORIGINAL AND ONLY GENUINE INDIAN MEDICINE.

The same yesterday, to-day and forever.

Certificate from Col Tate, editor of the Columbia Democrat, Pa.

OFFICE OF THE COLUMBIA DEMOCRAT,

Bloomsburg, Columbia Co., Pa.,

March 4, 1848.

Dr William Wright—Dear Sir—I am one of the many whose over-hasty quack nostrums has deprived them of the benefits resulting from the use of good medicines. Acting under this influence, I seldom resorted to the Pill box. Last March, when you commenced advertising in my paper, I was induced to give your Indian Vegetable Pills a trial, and after having fairly tested the merits of myself and family, gave them a decided preference over every other preparation.

In every instance, when affected with sick headache, or when the stomach was encumbered with morbid humors, I found speedy relief from the use of your Pills. By taking them four to six pills at bed, when indisposed, I have always been restored to health in a short time, and without the expense of a physician. Wright's Indian Vegetable Pills possess the distinguished merit of operating effectually, without disturbing the rest of the patient, and in my case, without producing even sickness at the stomach.

Respectfully, your friend, &c.

LEVEL TATE.

[From the Delaware Express, Delhi, N. Y.]

WRIGHT'S INDIAN VEGETABLE PILLS.—Although not particularly friendly to patent medicines we must confess that we have become a convert to these pills, having had an opportunity on one or two occasions to test their efficacy. For a gentle medicine one or two will be found mild enough, effective. Where bile or other impurities have accumulated, and more thorough medicine is required, a dose of three or four of these pills, taken on going to bed, will be found effectual in clearing the stomach and restoring the bowels to a healthy state. We speak from experience, and take pleasure in commending the pills to the public.

Look out for Counterfeits!

Some are coated with sugar; others are made to resemble in outer appearance the original article. The surest course is to purchase from the agents only, one of whom will be found in every town and county in the State.

The following agents have been established for the sale of Wright's Indian Vegetable Pills in Penobscot County—

BANGOR—BUGBEE, General Agent—

Bangor:
E. L. GOTHAKER, Hermon;
E. & L. BIRELLOW, South Orrington;
JACOB WEBB, Lincoln;
HIRAM DAVIS & CO., Enfield;
B. P. HADLEIGH, Stillwater;
G. A. SMITH, Passadumkeag;
CONRY & SYKES, Kenduskeag;
F. H. HINCKLEY, Herron;
ABNER KNOWLTON, Newburgh;
SAMUEL BICKFORD, Dexter;
C. F. WHITNEY, Plymouth;
JOSHUA GAMMON, Exeter;
CHARLES REYNOLDS, Garland;
AMASA BOLDEN, Charleston;

THOSE who wish to make a great saving in their purchases are informed that for the purpose of making room for

A Large and Splendid Fall Stock,

The whole of the present supply of VALUABLE COOK STOVES will be sold at Cost!

—to—

N. JOHNSON,

Nos. 80 & 82 Main St.

AND

Nos. 9 & 1 Wall Street,

HAS NOW ON HAND

Cooking Stoves

Of every description which he offers for the present, at cost.

He has also the following varieties of

IMPROVED Cooking Ranges!

POND'S, DEARBORN'S, STIMPSON'S, and BEEBE'S.

The following certificate cannot fail to settle the question conclusively in this community as to my agency for the sale of *Dearborn's Improved Portable Ranges*, in the city of Bangor.

NATHANIEL JOHNSON, Esq.

Dear Sir—I hereby appoint you my agent for the sale of my Cooking Ranges. And sole agent for the sale of my Improved Portable Range in the city of *Bangor*, Me. JOHN M. DEARBORN.

HOT-AIR FURNACES.

Chilson's, Culver's, Simpson's, Fox's and Bunlow's Improved Hot air Furnaces, five of the best known, now on hand and sold as low as by any one.

The first two of Culver's furnaces erected in this city, were under my direction and they work admirably—one of them in the dwelling of Isaac Farrar and the other in the dwelling of Col. Oliver Frost.

COPPER, SHEET IRON, LEAD PIPE, ZINC, &c., constantly on hand, and for sale at Boston Prices.

Also, just received 50 of DOUGLASS' PUMPS, the best in use, which will be put up and warranted.

N. B. Copper, Sheet Iron and Tin-ware manufactured to order, by the best of workmen.

☞ Orders promptly attended and promptly executed.

We would also call the attention of Mill Owners and operators to

Valentine's Patent Reversing Centrifugal Water Wheel

—FOR—

"UPRIGHT SHAFTS"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes to give any amount of power required, and in reputation these Wheels have acquired in the successful operation of several hundred now in use, sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel for perpendicular Shafts, now in use.

As a specimen of the merits of the Wheel we would refer to the following extracts from a report of experiments made with the same by MARK BEARD, Esq., Civil Engineer, of Mass. who is well known as one of the most scientific and experienced practical Engineers in the country.

"The wheel is armed with curved floorsurbber depending upon the size and speed of the Wheel, each extending so far around the circle that when the water arrives at the jet it is so far expended that it falls very near from the Wheel. The Wheel is fitted to an intricate wooden curb or flume, in which it is stayed at its full head, the column being held by the stationary plate underneath the Wheel, so that it has no down ward pressure upon the Wheel which stands perfectly free in the channel, and by this arrangement all the friction and bearing of the Wheel is avoided, and so much the power saved, which in the ordinary operation is wholly lost.

"This Wheel is adapted to use as well at heads of water, and will run as well in back water as out of it, providing the head is as much as the back water. But a Wheel with the right gauged for a high head will not work at a low one, and vice versa, for as the head varies the width of the jets should be, proportionally increased, so that the water may not waste, and not give its best effect to the Wheel.

"In point of power, the trials show conclusively that this Wheel is superior to the best of the Breast Wheels, and it has the advantage in cases with good effect in situations where the Breast Wheel would be worthless; it is less liable to repairs, easily accessible when they occur, costs much less in the outlay, is much more simple and takes very much less room in a mill. Simplicity of structure, durability, and excellence of application and excellence of execution are the grand points of recommendation for the Wheel."

THAMAR A. BEARD, *Civil Engineer.*

☞ All sizes of the above Wheels and the LATEST and most IMPROVED patterns of Mill Gearing, Machinery for Single, Clapboard, Sapping, Lath and Box Machines.

Steam Engines and Boilers

with all kinds of

PAPER MACHINERY,

manufactured and furnished on the most reasonable terms.

Mutual Benefit Life Insurance COMPANY

OFFICE No. 2 GRANITE BLOCK, EAST MARKET SQUARE

THE affairs of this Company are in the hands of business men favorably known to the community, have permission to refer to the following gentlemen, Boston:

Hon. J. G. Rogers, Samuel A. Ames, U. S. Attorney,
Hon. S. Fairbanks, Abel J. Phelps, Esq.
Robt. G. Shaw, Esq., Jos. Ingersoll, Esq.
and to the following Gentlemen in Bangor:
Hon. Edward Kenry, Charles Hersey,
James Crosby, Boyd Hatch,
Geo. S. P. Strickland.

The Company offers the following advantages:

1st. When the premium is over $100 dollars, one fourth may be paid in cash, and three-fourths secured by notes, at twelve months, with six per cent; or it may be paid half yearly, quarterly, or monthly.

2d. In taking *life policies*, and paying the premium in cash, and those taking policies for *a period*, and pay taking *sixty per cent* in cash, dollars (per annum) may give a note, indorsed by the assignee, if satisfactory to the officers.

Whole number of policies issued to 29 months, 1777.

Left January, 1848, 4157.

Whole amount of premiums thereon, $41,[illegible]

Dividends of profits, January, 1847, 35 per cent.

This Company has now been about 2½ years old, and it is a gratifying circumstance, that its success fully justifies the principles adopted for its guidance, and that far more than realized the most sanguine expectations of its friends.

It represents an amount of business, which has a parallel in the history of Life Insurance, and is gaining in public confidence; and that the increased deposits in the Company at its office is conclusive.

ROBERT L. PATTERSON, Agent.

REV. C. MILLER, Secy.
